

HYDRAULIC CATHEAD

Bentec HYDRAULIC CATHEAD
for smooth and adjustable make-up Torque.

This useful rig floor equipment provides smooth and adjustable make-up Torque. Due to its hydraulic operation, the Bentec Hydraulic Cathead eliminates electrical hazards. The system can be powered by either a stand-alone hydraulic power unit (HPU), or integrated into the existing rig hydraulic power unit.

The pulling force provided by the Bentec Hydraulic Cathead ensures correct and sufficient make-up and break out torque for drill-pipe, drill collars, bit connections or other applications.

Technical Data

Model HC-31.5

Max. line pull:	31,500 lbf	140 kN
Max. line speed:	0.5 ft / sec	0.15 m / sec
Line stroke:	4.92"	1 500 mm
Wireline diameter:	7/8"	22 mm
Hydraulic working pressure:	2,030 PSI	140 bar
Hydraulic flow:	26.4 gpm	100 l / min
Operation angle of pivot arm in degrees:	25° - each side	
Length:	32.3"	821 mm
Width:	19.7"	500 mm
Height:	84.6"	2 000 mm
Weight less optional equipment:	2,535 lbs	1,150 kg

Key Features

- Remote controls with pressure regulation
- CE & ATEX conformity
- Suitable for arctic and desert environments
- Suitable for onshore and offshore
- Flexible floor connections

Hydraulic Cathead

Benefits

- Simplified design enables trouble free performance
- Simplified design - extended maintenance intervals
- Various floor connections enable flexible rig applications
